#### Delivery information

As most of you are aware, like many other manufacturers in this industry, Bowser experienced the closing of our manufacturing facility. With new facilities now in place, we are working diligently to get production back on track.

We do not have a specific production schedule at this time.

#### Production at our Factory #1

1. Alco 630
2. Spine Cars
3. M630 Locos
4. Freight Cars will be mixed in with the above.

Factory #1 likes to make freight cars.

#### Production from our Factory #2 in order below

1. SD40-2 are in process now and next shipment due about the 20th in Montoursville.
2. Second batch of SD40-2 and several ballast cars -
3. Ballast cars and 70 Ton Covered Hoppers
4. RS3's a few road names each month until all are done.
5. PCC Trolley car
6. U25b and AS16

I would like to give you specific information about delivery but the "WORLD IS ON FIRE"

Lee English  
President Bowser Mfg

Thank you for your patronage and patience as we move through this reset process.
